

Eight hubs. One clear build plan.

The short companion to the long-form V4 content master.

START WITH THE HUB YOU ARE BUILDING

Each hub has the exact fifteen section jobs and an eight-slot asset list.

01	Home Intelligence	PAGE 02
02	Architectural Lighting	PAGE 03
03	Motorized Shading	PAGE 04
04	Media & Audio	PAGE 05
05	Private Cinemas	PAGE 06
06	Security Cameras & Access Control	PAGE 07
07	Digital Infrastructure & Privacy	PAGE 08
08	Outdoor Entertainment	PAGE 09

48 REAL PHOTO SLOTS / 16 STUDY SLOTS

A concept render can explain a system. It cannot substitute for DAVG project proof.

Home Intelligence

What is Control4, and should I start with one room or the whole home?

DECISION: Choose a likely scope and interface mix; flag local, cloud, and takeover questions.

BUILD THE FIFTEEN SECTIONS

IN NUMBERED ORDER

- 01 **HERO**
Lead with a finished, connected residence.
- 02 **DIRECT ANSWER**
Define Control4 in plain homeowner language.
- 03 **DESIRED EXPERIENCE**
Show Arrive, Movie and Goodnight moments.
- 04 **SYSTEM ARCHITECTURE**
Map controller, drivers, network and interfaces.
- 05 **SIGNATURE STUDY**
Draw one-system residence / scene states.
- 06 **DECISION GUIDE**
Compare room, whole-home and takeover paths.
- 07 **ROOM USE CASES**
Show scenes plus the manual exception route.
- 08 **TECHNICAL CUTAWAY**
Trace a command through the local equipment.
- 09 **PROJECT PATH**
Split new build, renovation and retrofit.
- 10 **PREVENT FAILURES**
Audit ownership, drivers, network and backup.
- 11 **REAL DAVG PROOF**
Use Belcaro only for confirmed DAVG work.
- 12 **INVESTMENT FACTORS**
Show subsystems, zones and controls as cost drivers.
- 13 **PROCESS + CARE**
Explain design, test, training and service.
- 14 **DENVER Q&A**
Answer Connect, outage and existing-home FAQs.
- 15 **GUIDED BRIEF**
Ask scope, construction stage and next action.

HOW TO USE THIS SHEET

Build the numbered sections in order. Use the full content master for copy, specifications and source links.

TEACH BEFORE THEY INQUIRE

- One media room vs several rooms vs inherited system.
- Physical keypad, touchscreen, remote and app roles.
- What works locally; what needs Connect or internet.

COLLECT / CREATE THESE EIGHT SLOTS

6 REAL PHOTOS + 2 TECHNICAL STUDIES

- ☐ 01 S01 PHOTO / HERO
Whole-residence architectural interior/exterior.
- ☐ 02 S02 PHOTO / DETAIL
Real interface or installed keypad close-up.
- ☐ 03 S03 PHOTO / EXPERIENCE
Finished room in a clear scene state.
- ☐ 04 S05 STUDY / SIGNATURE
Nervous System diagram; control mockup is a visual reference.
- ☐ 05 S08 STUDY / TECHNICAL
Verified controller / rack / control cutaway.
- ☐ 06 S11 PHOTO / PROOF
Belcaro / Steele Street wide project view.
- ☐ 07 S11 PHOTO / PROOF DETAIL
Same project: keypad, rack or installed detail.
- ☐ 08 S14 PHOTO / LOCAL
Denver-area residence; architecture dominates.

OPTIONAL S06 PRODUCT GALLERY

Not required. Use device UI as a subordinate explanatory layer.

PUBLISH HOLD

Confirm Belcaro scope, photo rights, current drivers and Connect terms.

Architectural Lighting

Which Lutron platform and wall controls fit my rooms and wiring?

DECISION: Choose likely control topology after fixtures, drivers and useful scenes are defined.

BUILD THE FIFTEEN SECTIONS

IN NUMBERED ORDER

- 01 **HERO**
Lead with a finished dusk room and light layers.
- 02 **DIRECT ANSWER**
Define fixture + circuit + control as one system.
- 03 **DESIRED EXPERIENCE**
Show distinct morning and evening room states.
- 04 **SYSTEM ARCHITECTURE**
Map fixtures, drivers, loads, panels and keypads.
- 05 **SIGNATURE STUDY**
Compare switch bank with an engraved keypad.
- 06 **DECISION GUIDE**
Teach Caséta / RadioRA 3 / HomeWorks fit.
- 07 **ROOM USE CASES**
Apply scenes to kitchen, living and bedroom.
- 08 **TECHNICAL CUTAWAY**
Show fixture-driver-control and panel detail.
- 09 **PROJECT PATH**
Show new build, open renovation and retrofit.
- 10 **PREVENT FAILURES**
Explain flicker, flat light and keypad clutter.
- 11 **REAL DAVG PROOF**
Use a verified DAVG lighting installation.
- 12 **INVESTMENT FACTORS**
Show load, panel, fixture and finish drivers.
- 13 **PROCESS + CARE**
Coordinate trades; commission after furnishing.
- 14 **DENVER Q&A**
Answer platform, wiring and shade-control FAQs.
- 15 **GUIDED BRIEF**
Gather plans, fixture schedule or problem rooms.

HOW TO USE THIS SHEET

Build the numbered sections in order. Use the full content master for copy, specifications and source links.

TEACH BEFORE THEY INQUIRE

- Start with light layers and fixture/driver compatibility.
- Compare local dimming with panel / hybrid control.
- Select Sunnata, Palladiom or Alisse by platform and room.

COLLECT / CREATE THESE EIGHT SLOTS

6 REAL PHOTOS + 2 TECHNICAL STUDIES

- ☐ 01 S01 PHOTO / HERO
Finished dusk interior with distinct light layers.
- ☐ 02 S02 PHOTO / DETAIL
Real Lutron keypad or fixture detail.
- ☐ 03 S03 PHOTO / EXPERIENCE
Different finished room with a scene state.
- ☐ 04 S05 STUDY / SIGNATURE
Wall Clutter study; lighting comparison is a visual reference.
- ☐ 05 S08 STUDY / TECHNICAL
Fixture / driver / panel relationship drawing.
- ☐ 06 S11 PHOTO / PROOF
Verified DAVG lighting project, wide view.
- ☐ 07 S11 PHOTO / PROOF DETAIL
Same project: keypad, trim or hidden light.
- ☐ 08 S14 PHOTO / LOCAL
Colorado daylight-to-evening room context.

OPTIONAL S06 PRODUCT GALLERY

S06: 2-5 photos of keypad face, angle, installed wall and scene.

PUBLISH HOLD

Confirm exact keypad platform, tested loads, project proof and rights.

Motorized Shading

Which Lutron shade, fabric and installation fit each window?

DECISION: Build a likely opening-by-opening shortlist that DAVG can measure and approve.

BUILD THE FIFTEEN SECTIONS

IN NUMBERED ORDER

- 01 **HERO**
Lead with actual glass and an installed shade.
- 02 **DIRECT ANSWER**
Define fabric, motor, power and top treatment.
- 03 **DESIRED EXPERIENCE**
Contrast view, glare, privacy and darkness.
- 04 **SYSTEM ARCHITECTURE**
Map opening, fabric, brackets, controls and power.
- 05 **SIGNATURE STUDY**
Draw solar path, view line and pocket.
- 06 **DECISION GUIDE**
Compare fabric, Triathlon, Sivoia and Palladiom.
- 07 **ROOM USE CASES**
Show four real opening / room conditions.
- 08 **TECHNICAL CUTAWAY**
Cut through pocket, blocking and light gaps.
- 09 **PROJECT PATH**
Compare new-build pocket and battery retrofit.
- 10 **PREVENT FAILURES**
Avoid gaps, wrong fabric and misaligned hems.
- 11 **REAL DAVG PROOF**
Show a measured, permitted DAVG project.
- 12 **INVESTMENT FACTORS**
Compare construction, finish and size cost drivers.
- 13 **PROCESS + CARE**
Explain survey, samples, install and service.
- 14 **DENVER Q&A**
Answer size, pocket, privacy and power FAQs.
- 15 **GUIDED BRIEF**
Request window schedule and construction stage.

HOW TO USE THIS SHEET

Build the numbered sections in order. Use the full content master for copy, specifications and source links.

TEACH BEFORE THEY INQUIRE

- Fabric and day/night privacy before hardware family.
- Triathlon / Sivoia / Palladiom: fit beyond price.
- Size, dual rollers, pocket, battery and control path.

COLLECT / CREATE THESE EIGHT SLOTS

6 REAL PHOTOS + 2 TECHNICAL STUDIES

- ☐ 01 S01 PHOTO / HERO
Finished room with large glazing and shade down.
- ☐ 02 S02 PHOTO / DETAIL
Real bracket, pocket, hembar or control detail.
- ☐ 03 S03 PHOTO / EXPERIENCE
Different room showing daylight/privacy state.
- ☐ 04 S05 STUDY / SIGNATURE
Solar Geometry study; green shade mockup is a reference.
- ☐ 05 S08 STUDY / TECHNICAL
Measured pocket / blocking / power cutaway.
- ☐ 06 S11 PHOTO / PROOF
Verified DAVG shade project, wide room view.
- ☐ 07 S11 PHOTO / PROOF DETAIL
Same project: pocket or exposed hardware.
- ☐ 08 S14 PHOTO / LOCAL
West/south-facing Denver glazing context.

OPTIONAL S06 PRODUCT GALLERY

S06: 2-5 photos of fabric, full window, Palladiom, Sivoia pocket and keypad.

PUBLISH HOLD

Verify exact model/fabric size, opening schedule, pocket and image rights.

Media & Audio

How do we get music through the home without compromising each room?

DECISION: Define zones, source paths and speaker visibility for each type of room.

BUILD THE FIFTEEN SECTIONS

IN NUMBERED ORDER

- 01 **HERO**
Lead with a finished living / media room.
- 02 **DIRECT ANSWER**
Define sources, zones, amplification and control.
- 03 **DESIRED EXPERIENCE**
Show independent rooms and social grouping.
- 04 **SYSTEM ARCHITECTURE**
Map signal, amps, cable, speaker and display.
- 05 **SIGNATURE STUDY**
Show distributed vs corner-source sound map.
- 06 **DECISION GUIDE**
Compare invisible, aperture, grille and visible.
- 07 **ROOM USE CASES**
Apply to kitchen, library, media room and patio.
- 08 **TECHNICAL CUTAWAY**
Show speaker cavity, cable and service path.
- 09 **PROJECT PATH**
Compare rough-in, renovation and targeted retrofit.
- 10 **PREVENT FAILURES**
Avoid poor coverage, glare and hot racks.
- 11 **REAL DAVG PROOF**
Show verified finished DAVG audio work.
- 12 **INVESTMENT FACTORS**
Price by zone, finish, source and construction.
- 13 **PROCESS + CARE**
Document install, tuning and source handoff.
- 14 **DENVER Q&A**
Answer wired audio and media room FAQs.
- 15 **GUIDED BRIEF**
Request room list and listening priorities.

HOW TO USE THIS SHEET

Build the numbered sections in order. Use the full content master for copy, specifications and source links.

TEACH BEFORE THEY INQUIRE

- Background vs focused vs flexible media-room use.
- Invisible vs small aperture vs grille vs visible.
- Speaker wire, source network and amplifier location.

COLLECT / CREATE THESE EIGHT SLOTS

6 REAL PHOTOS + 2 TECHNICAL STUDIES

- ☐ 01 S01 PHOTO / HERO
Finished room with audio/display subordinate.
- ☐ 02 S02 PHOTO / DETAIL
Installed architectural speaker or control.
- ☐ 03 S03 PHOTO / EXPERIENCE
Different finished listening/entertaining room.
- ☐ 04 S05 STUDY / SIGNATURE
Multi-Zone Sound Map (new primary study).
- ☐ 05 S08 STUDY / TECHNICAL
Speaker cutaway; invisible design mockup is a reference.
- ☐ 06 S11 PHOTO / PROOF
Verified DAVG audio or media project.
- ☐ 07 S11 PHOTO / PROOF DETAIL
Same project: speaker, rack or source detail.
- ☐ 08 S14 PHOTO / LOCAL
Denver indoor/outdoor listening context.

OPTIONAL S06 PRODUCT GALLERY

Optional only if concealment choices need a real material comparison.

PUBLISH HOLD

Verify invisible assembly, project scope, tuning and image permissions.

Private Cinemas

Should this be a dedicated cinema or a flexible media room?

DECISION: Choose a room brief and image path before selecting equipment or seat count.

BUILD THE FIFTEEN SECTIONS

IN NUMBERED ORDER

- 01 **HERO**
Lead with the Castle Rock room if cleared.
- 02 **DIRECT ANSWER**
Define a purpose-built cinema plainly.
- 03 **DESIRED EXPERIENCE**
Show every seat seeing and hearing the room.
- 04 **SYSTEM ARCHITECTURE**
Map sightlines, image, speakers, noise and HVAC.
- 05 **SIGNATURE STUDY**
Draw riser, screen wall and isolated wall.
- 06 **DECISION GUIDE**
Compare media room, projection and direct view.
- 07 **ROOM USE CASES**
Show single-row and two-row room briefs.
- 08 **TECHNICAL CUTAWAY**
Reveal treatment, isolation and service routes.
- 09 **PROJECT PATH**
Plan new-build, conversion or room upgrade.
- 10 **PREVENT FAILURES**
Avoid blocked rows, daylight and HVAC noise.
- 11 **REAL DAVG PROOF**
Use only confirmed Castle Rock facts and images.
- 12 **INVESTMENT FACTORS**
Separate building, image, sound and seats.
- 13 **PROCESS + CARE**
Measure, model, install and calibrate.
- 14 **DENVER Q&A**
Answer room size, screen and acoustic FAQs.
- 15 **GUIDED BRIEF**
Request dimensions, photos and desired seats.

HOW TO USE THIS SHEET

Build the numbered sections in order. Use the full content master for copy, specifications and source links.

TEACH BEFORE THEY INQUIRE

- Dedicated enclosure vs everyday multipurpose room.
- Projection / AT screen / solid screen vs direct view.
- Seat geometry, treatment and isolation are separate.

COLLECT / CREATE THESE EIGHT SLOTS

6 REAL PHOTOS + 2 TECHNICAL STUDIES

- ☐ 01 S01 PHOTO / HERO
Castle Rock finished-room view, if cleared.
- ☐ 02 S02 PHOTO / DETAIL
Screen wall, speaker fabric or seating detail.
- ☐ 03 S03 PHOTO / EXPERIENCE
Second angle showing full viewing geometry.
- ☐ 04 S05 STUDY / SIGNATURE
Sightline Geometry + isolation study.
- ☐ 05 S08 STUDY / TECHNICAL
Verified wall / ceiling / acoustic cutaway.
- ☐ 06 S11 PHOTO / PROOF
Castle Rock proof image distinct from hero.
- ☐ 07 S11 PHOTO / PROOF DETAIL
Same project: SI screen or Sonance detail.
- ☐ 08 S14 PHOTO / LOCAL
Arrival / regional context, not another theater.

OPTIONAL S06 PRODUCT GALLERY

No gallery by default; use one measured room section instead.

PUBLISH HOLD

Confirm Castle Rock 7.2 topology, 120-inch screen, photos and rights.

Security Cameras & Access Control

What should cameras actually show, and who controls entry and footage?

DECISION: Define coverage, privacy, storage and credential policy by property area.

BUILD THE FIFTEEN SECTIONS

IN NUMBERED ORDER

- 01 **HERO**
Lead with a calm residence entry / approach.
- 02 **DIRECT ANSWER**
Define coverage, recording and controlled access.
- 03 **DESIRED EXPERIENCE**
Show useful alerts and deliberate visitor access.
- 04 **SYSTEM ARCHITECTURE**
Map views, storage, network, power and doors.
- 05 **SIGNATURE STUDY**
Show perimeter with privacy exclusions.
- 06 **DECISION GUIDE**
Compare detail-at-target, local/cloud and entry.
- 07 **ROOM USE CASES**
Apply to gate, front door, garage and patio.
- 08 **TECHNICAL CUTAWAY**
Reveal recorder, network and data path safely.
- 09 **PROJECT PATH**
Plan new-build conduit or measured retrofit.
- 10 **PREVENT FAILURES**
Avoid blind spots, alerts and account drift.
- 11 **REAL DAVG PROOF**
Use redacted DAVG proof with owner permission.
- 12 **INVESTMENT FACTORS**
Show storage, gate, trench and service drivers.
- 13 **PROCESS + CARE**
Train owners in roles, exports and revocation.
- 14 **DENVER Q&A**
Answer footage, access and device-safety FAQs.
- 15 **GUIDED BRIEF**
Ask property layout and privacy priorities.

HOW TO USE THIS SHEET

Build the numbered sections in order. Use the full content master for copy, specifications and source links.

TEACH BEFORE THEY INQUIRE

- Observe vs recognize vs identify at each target.
- NVR vs cloud vs hybrid; outage and retention.
- Visitor video vs lock/gate credentials and override.

COLLECT / CREATE THESE EIGHT SLOTS

6 REAL PHOTOS + 2 TECHNICAL STUDIES

- ☐ 01 S01 PHOTO / HERO
Finished entry or property approach.
- ☐ 02 S02 PHOTO / DETAIL
Installed camera, intercom, lock or gate detail.
- ☐ 03 S03 PHOTO / EXPERIENCE
Different exterior showing discreet placement.
- ☐ 04 S05 STUDY / SIGNATURE
Redacted perimeter / privacy concept study.
- ☐ 05 S08 STUDY / TECHNICAL
Redacted recorder path / mounting cutaway.
- ☐ 06 S11 PHOTO / PROOF
Permission-cleared DAVG installation.
- ☐ 07 S11 PHOTO / PROOF DETAIL
Same project: tightly cropped entry device.
- ☐ 08 S14 PHOTO / LOCAL
General local alley/gate; no client clues.

OPTIONAL S06 PRODUCT GALLERY

Avoid product glamour sequence; prioritize a safe property scenario.

PUBLISH HOLD

Privacy review: reveal no exploitable layout, credentials or recorder site.

Digital Infrastructure & Privacy

Why is home Wi-Fi weak even when the internet plan is fast?

DECISION: Identify the failing layer and prewire/service needs before buying equipment.

BUILD THE FIFTEEN SECTIONS

IN NUMBERED ORDER

- 01 **HERO**
Lead with the home, not a rack as decor.
- 02 **DIRECT ANSWER**
Separate internet service from internal network.
- 03 **DESIRED EXPERIENCE**
Show stable calls, control, media and outdoors.
- 04 **SYSTEM ARCHITECTURE**
Map gateway, switching, APs, cable and power.
- 05 **SIGNATURE STUDY**
Draw the serviceable equipment core.
- 06 **DECISION GUIDE**
Compare mesh, wired APs, cable and isolation.
- 07 **ROOM USE CASES**
Use four homes / demands as example briefs.
- 08 **TECHNICAL CUTAWAY**
Reveal RF/material effects and logical topology.
- 09 **PROJECT PATH**
Plan new-build routes, retrofit and takeover.
- 10 **PREVENT FAILURES**
Avoid speed-plan fixes for internal RF issues.
- 11 **REAL DAVG PROOF**
Use a permission-cleared, redacted DAVG rack.
- 12 **INVESTMENT FACTORS**
Show AP, wiring, rack, UPS and support drivers.
- 13 **PROCESS + CARE**
Test real traffic; hand off accounts and topology.
- 14 **DENVER Q&A**
Answer ISP router, mesh and VLAN questions.
- 15 **GUIDED BRIEF**
Request plan, device list or weak-room notes.

HOW TO USE THIS SHEET

Build the numbered sections in order. Use the full content master for copy, specifications and source links.

TEACH BEFORE THEY INQUIRE

- Locate issue: ISP, gateway, switch, RF or client.
- Mesh vs cabled AP, with actual material survey.
- Cat6A, fiber and speaker wire serve different ends.

COLLECT / CREATE THESE EIGHT SLOTS

6 REAL PHOTOS + 2 TECHNICAL STUDIES

- ☐ 01 S01 PHOTO / HERO
Finished residence relying on the network.
- ☐ 02 S02 PHOTO / DETAIL
Verified rack, AP or structured cable detail.
- ☐ 03 S03 PHOTO / EXPERIENCE
Different finished work / media use room.
- ☐ 04 S05 STUDY / SIGNATURE
Centralized Equipment Core study.
- ☐ 05 S08 STUDY / TECHNICAL
RF plan + rack; infrastructure mockup is a reference.
- ☐ 06 S11 PHOTO / PROOF
Permission-cleared DAVG infrastructure.
- ☐ 07 S11 PHOTO / PROOF DETAIL
Same project: labels, power or cooling detail.
- ☐ 08 S14 PHOTO / LOCAL
Material-heavy Denver architecture context.

OPTIONAL S06 PRODUCT GALLERY

No gallery by default; use an accurate RF/material study.

PUBLISH HOLD

Remove IP/account/security clues; verify real rack schedule and survey.

Outdoor Entertainment

What sound, display and lighting fit this property and its sun?

DECISION: Map zones, exposure, neighbor edges and pathways before selecting devices.

BUILD THE FIFTEEN SECTIONS

IN NUMBERED ORDER

- 01 **HERO**
Lead with a finished twilight outdoor space.
- 02 **DIRECT ANSWER**
Define zones plus audio, video, light and network.
- 03 **DESIRED EXPERIENCE**
Show indoor/outdoor scenes staying independent.
- 04 **SYSTEM ARCHITECTURE**
Map property, sun, sound boundary and conduit.
- 05 **SIGNATURE STUDY**
Draw distributed landscape sound zones.
- 06 **DECISION GUIDE**
Compare speaker topology and display exposure.
- 07 **ROOM USE CASES**
Show dining, pool, TV patio and quiet edge.
- 08 **TECHNICAL CUTAWAY**
Reveal burial, drainage, power and mount.
- 09 **PROJECT PATH**
Plan before hardscape or survey retrofit routes.
- 10 **PREVENT FAILURES**
Avoid one loud source or wrong sun-rated TV.
- 11 **REAL DAVG PROOF**
Use a real permitted DAVG exterior project.
- 12 **INVESTMENT FACTORS**
Show trench, display, zone and power drivers.
- 13 **PROCESS + CARE**
Commission use levels and seasonal care.
- 14 **DENVER Q&A**
Answer outdoor TV, 70 V and patio retrofit.
- 15 **GUIDED BRIEF**
Request landscape plan and zone priorities.

HOW TO USE THIS SHEET

Build the numbered sections in order. Use the full content master for copy, specifications and source links.

TEACH BEFORE THEY INQUIRE

- Near-listener sound and quiet property edges.
- Low-impedance vs 70 V by speaker layout.
- Full/partial shade, model rating and viewing time.

COLLECT / CREATE THESE EIGHT SLOTS

6 REAL PHOTOS + 2 TECHNICAL STUDIES

- ☐ 01 S01 PHOTO / HERO
Finished patio / pool / terrace at twilight.
- ☐ 02 S02 PHOTO / DETAIL
Installed weather-rated device detail.
- ☐ 03 S03 PHOTO / EXPERIENCE
Different outdoor use zone.
- ☐ 04 S05 STUDY / SIGNATURE
Distributed Landscape Sound study.
- ☐ 05 S08 STUDY / TECHNICAL
Conduit / mount / drainage technical detail.
- ☐ 06 S11 PHOTO / PROOF
Verified DAVG outdoor project wide view.
- ☐ 07 S11 PHOTO / PROOF DETAIL
Same project: speaker, mount or light detail.
- ☐ 08 S14 PHOTO / LOCAL
Front Range seasonal sun/snow context.

OPTIONAL S06 PRODUCT GALLERY

Optional display/speaker close-ups only if exposure tradeoffs matter.

PUBLISH HOLD

Verify exact outdoor ratings, property plan and project image rights.

Photo capture tracker

Mark a slot when its exact asset and publication rights are cleared.

THE EIGHT SLOT TYPES

- ☐ 01 / S01 - wide finished hero
- ☐ 02 / S02 - installed device / detail
- ☐ 03 / S03 - distinct room / use state
- ☐ 04 / S05 - signature explanatory study
- ☐ 05 / S08 - technical cutaway / verified detail
- ☐ 06 / S11 - real project proof, wide
- ☐ 07 / S11 - same proof project, close detail
- ☐ 08 / S14 - real regional architecture / context

TRACK COMPLETION BY HUB

Slot numbers match the eight types above; 04 and 05 are created studies.

RIGHTS AND ACCURACY

Record photographer, owner permission, installed product and factual caption. Attached mockups are references; rebuild their labels. Never reveal sensitive security or network details.

Build in this order

Run this once for each hub; a checked box means the output exists.

☐ 01 Decision brief

Answer the search question; define Section 06 choices and reasons to reject a path.

Output: one homeowner shortlist + example room/opening/property.

☐ 02 Proof + permissions

Select a real DAVG project; approve factual captions and who may use the photos.

Output: S11 wide proof and same-project detail.

☐ 03 Assets + technical studies

Collect S01/S02/S03/S14 photos; validate the S05 and S08 diagrams.

Output: eight named slots + optional S06 gallery.

☐ 04 Build the reading flow

Implement S01-S15 in order, visually grouped into readable chapters.

Output: section anchors, mobile order and accessible captions.

☐ 05 Scope + owner handoff

Explain construction paths and real cost drivers; add approved budget data only.

Output: measured schedule, responsibilities and service notes.

☐ 06 Final QA

Review product claims, image rights, mobile gallery, full-page flow and inquiry.

Output: DAVG technical/editorial sign-off and no empty proof slots.

SOURCE OF DETAIL

Use DAVG-V4-Eight-Solution-Hub-Content-Master.md for final copy, citations, exact comparisons and technical publishing gates.
